

Looking for the ultimate holiday cart program?

Fun Feet carts have been producing for over 12 years with top retailers selling over \$100,000.00 in just two months!

In the world of retail, it is no secret that the key to success is the ability to offer the right product to the right customer at the right price and at the right time.

Fun Feet retailers know this and that is why year after year their carts consistently outperform many other programs for the key months of November and December. But don't just take our word for it...

"I have been operating Fun Feet slipper carts for the past two years. In my first two months of operation with two carts, I had already reached over \$200k in combined sales! Because of this great success, I expanded to five carts the next holiday season.

Fun Feet offers something for everyone and multiple sales happen almost naturally. Each year I have had several occasions when one person bought at least twenty pairs at once."

"I have been in the retail kiosk business for over twelve years and have sold many different types of products, but I have never dealt with a company as great as Fun Feet. They have been one of the best companies to work with, outshining everyone else. They are honest, fair and forthright with everything they do.

I have been selling Fun Feet for over five years now and it has been an excellent experience for me. They consistently offer great products with new designs and styles that keep customers interested. Fun Feet is a great product to sell and our cart is always the most colorful and dynamic one in the mall."

The customer service we receive is first rate. The turnaround time is quick and any requests or questions we have get dealt with immediately. Fun Feet stands behind their word and comes through on all of their promises."
